Category: Clinical Guideline (Signposting)

Pre-pregnancy and pregnancy-related vaccinations (C-Obs 44)

This guideline has been developed by the Pre-pregnancy and pregnancy-related vaccinations (C-Obs 44) Guideline Development Group and approved by the Women's Health Committee and associated working groups, Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCOG) Council and Board.

A list of the Guideline Development Group membership can be found in Appendix A, and the Women's Health Committee membership can be found ib should not be relied on as a substitute for pro circumstances of each case and the needs of any patient. This docu effects emerging clinical and scientific advances as of the date issued and is subject to change. The document has been prepared having regard to general circumstan ces

Appendix D).

First developed by RANZCOG: November 2011
Current version: March 2023 (Interim update October 2024)
Review due: March 2028

Objectives:	To provide immunisation advice to registered Australian and Aotearoa New Zealand health professionals providing maternity care, to minimise the incidence of vaccine preventable disease affecting women planning pregnancy, women who are pregnant and breastfeeding, and their infants up to six months of age.
